### **DETAILED ACTION**

- I. The Rejection of claims 1-15,17-20,21 under 35 USC 103(a) as being obvious over Shiokawa will be maintained for reason on record and reason on record.

Applicant argues that Shiokawa discloses a broad genus which encompasses a vast number of compounds. However, not a single compound listed is a compound of present invention. Shiokawa provides no description in the specification for arriving at instant compounds. The Examiner disagrees. In Claim 1 of Shiokawa the compounds of the instant invention are clearly suggested. Note that in claim 1 of Shiokawa Z1 can only be oxygen and A can clearly be 2-chloropyridin-5-yl which suggest the instant compounds. The specification clearly teaches how to make those compounds at column 6 line 65 – column 18 line 55. The compounds of instant application are clearly suggested by Shiokawa.

- II. The Rejection of claims 1-15,17-20, 22 under obviousness type double patenting over USPN 6376487 and claims 1,17, 22 under obviousness type double patenting over USPN 5852012 will be maintained for reason on record and reason as follows.
